

# Graded Project

- index.html

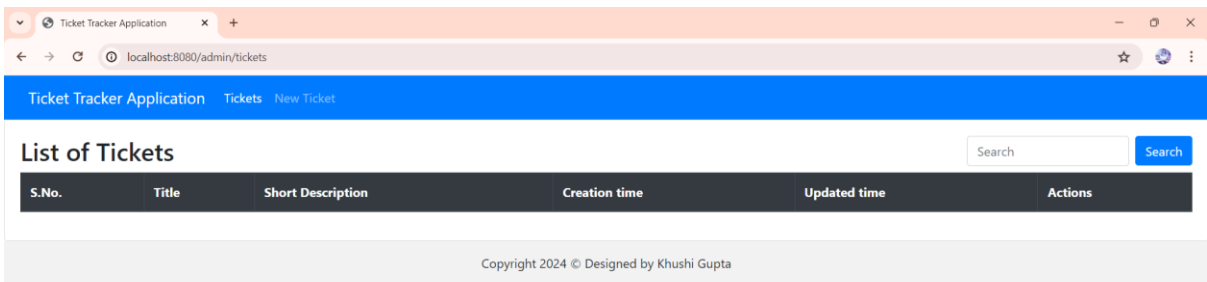

Click here to go to Ticket Tracker Application

Copyright 2024 © Designed by Khushi Gupta

localhost:8080/admin/tickets

- allTickets.html (after clicking the link in index.html)

- createTicket.html (after clicking “New ticket” in navbar)

The screenshot shows a web browser window with the title 'Ticket Tracker Application'. The address bar displays 'localhost:8080/admin/newtickets'. The page has a blue header with 'Ticket Tracker Application', 'Tickets', and 'New Ticket'. The main content area is titled 'Create Ticket' and contains three input fields: 'Title:' with placeholder 'Enter Ticket title', 'Short Description:' with placeholder 'Enter short Description', and 'Content:' with placeholder 'Enter Content'. A blue 'Submit' button is located below the 'Content' field. The footer of the page reads 'Copyright 2024 © Designed by Khushi Gupta'.

- Adding a record

The screenshot shows the same 'Create Ticket' form as before, but now it is filled with sample data. The 'Title' field contains 'Ticket 1', the 'Short Description' field contains 'Issue in Spring Boot', and the 'Content' field contains 'Unable to figure out the error'. The blue 'Submit' button remains at the bottom. The browser address bar still shows 'localhost:8080/admin/newtickets'. The footer of the page reads 'Copyright 2024 © Designed by Khushi Gupta'.

- List of ticket after adding a record
